Mr. Charles W. Thayer
Chief, International Broadcasting Division
224 West 57th Street
New York, N. Y.

Dear Charlie:

With reference to your letter of 12 November inquiring about Moscow broadcasts for displaced persons, BBC reports that it has found no trace of such broadcasts from Moscow, but that Radio Volga, the Soviet Forces transmitter in Germany operating on 722 and 7610 kes. at 1430 EST, carries transmissions in Balkan languages for displaced persons. BBC is continuing to investigate and we will request experimental coverage.

Sincerely,

L. K. WHITE
